

INTERNATIONAL SUMMER SCHOOL

NANOSCIENCE MEETS METROLOGY

Synthesis, Characterization, Testing and Applications of
Validated Nanoparticles

September 4th - 9th, 2016 - Torino, Italy
Chemistry Department of the University of Torino

Active Participation of Students

Students are invited to actively participate in the school by:

1. preparing an **oral presentation on a research topic** (20 min. plus discussion, to be given during the afternoon sessions scheduled on Mon 5/9, Tue 6/9 and Thu 8/9)
2. submitting an **extended abstract of the oral presentation** (2 A4 pages formatted following the “*Student Abstract Template*” provided at the school page at www.setnanometro.eu/events)
3. submitting one additional page containing a **summary of the overall PhD/postdoc research project** (250 word max.) and a **graphical abstract** (12x16 cm max.) prepared using the provided “*Summary and GA Template*” (same link as above)

The students are kindly requested to submit the material as word files named “Surname_abstract.docx” and “Surname_summaryGA.docx” and to mail them as attached to the address setnano.school@unito.it (with the indication “Surname: abstract and GA” in the object field). Please notice that GA and figures (if present) should be optimized for the final publication in black and white.

The new deadline for the summary and GA submission is 10 August 2016.

The abstracts, the summaries and the GAs will be collected in a book indexed through an ISBN code and distributed to all participants during the school.

Three **best oral presentations** and one **most appealing GA** will be chosen following a procedure illustrated during the school and awarded with (small) prizes.

All the registered students will receive a certificate of participation with the indication of the accredited ECTS (on request: please ask your institution for details about the number).
